

Interactive Media Platform™

CUSTOMIZABLE LMS

Our multimedia learning management system is customizable, expandable, and HIPAA compliant. LMS platform is ideal for training employees, customers, patients, and provides compliance training. It allows instructors to quickly **author courses, create exams & surveys, manage student learning goals, track progress individually or in teams, and provide certifications.** InteractiveMediaPlatform™ helps improve the learner's performance, and IMP's powerful analytics help identify gaps in learning.

Virtual Reality™ TOOLBOX

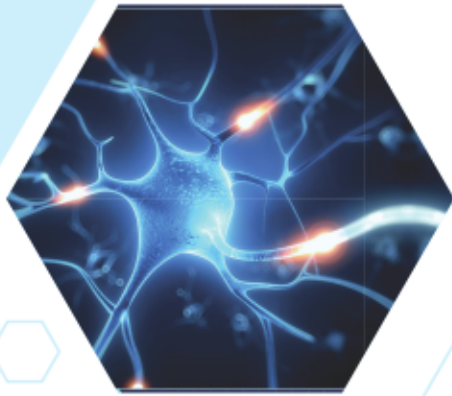

VRHistologyTour™ is an immersive VR tour of cell structures and teaches principles of fundamental biological processes, including 3D graphics and microscope pictures.

We develop Virtual Reality solutions for use with Oculus Rift and multiple devices. Our VR Tours and 3D interactive pathology simulators have been used by medical universities, hospitals, and building construction investors.

ActiveRecoveryCenter™ is Enfoglobe's platform for education and treatment monitoring of substance use disorders. ARC is a fully customizable multimedia platform that educates and motivates patients toward recovery SUD. We tailor multimedia educational content, provider's portal, and mobile monitoring to your clinic's needs.

OPIOIDS AND BRAIN

Opioids and Brain is a high-level educational animation explaining effects of opioids on the brain and MAT options for treatment. Animated tour shows how opioids affect the brain receptors and how medical treatment helps withdrawal symptoms.

NeoCardioSim™ is an interactive simulator for students, medical residents, and healthcare providers. It was developed with world-class experts of neonatology and cardiology to model specific diseases and their treatments. It simulates abnormal behavior of the heart and cardiovascular system, of particular relevance to intensive care cardiology and neonatology.

LEXA™ is a powerful legal case management system that manages vital documents and all other aspects of legal cases. LEXA includes document mass-loading, managing and editing contracts, court letters, proposals, videos, and timelines. LEXA manages events, expenses, time and billing, emails, contacts, has integrated communication tools, and provides sophisticated roles and functions for management.

ActiveRecoveryCenter™ is Enfoglobe's platform for education and treatment monitoring of substance use disorders. ARC is a fully customizable multimedia platform that educates and motivates patients toward recovery SUD. We tailor multimedia educational content, provider's portal, and mobile monitoring to your clinic's needs.
